INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

Applicant's or agent's file reference 040387PCT	FOR FURTHER ACTION <div style="display: flex; justify-content: space-between; font-size: small;"> see Form PCT/ISA/220 as well as, where applicable, item 5 below. </div>	
International application No. PCT/US05/22987	International filing date (<i>day/month/year</i>) 27 June 2005 (27.06.2005)	(Earliest) Priority Date (<i>day/month/year</i>) 30 June 2004 (30.06.2004)
Applicant ARCHER-DANIELS-MIDLAND COMPANY		

This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.

This international search report consists of a total of 3 sheets.

It is also accompanied by a copy of each prior art document cited in this report.

1. Basis of the Report

a. With regard to the **language**, the international search was carried out on the basis of:

the international application in the language in which it was filed.

a translation of the international application into _____, which is the language of a translation furnished for the purposes of international search (Rules 12.3(a) and 23.1(b))

b. ☐ With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application, see Box No. I.

2. ☐ **Certain claims were found unsearchable** (See Box No. II)

3. ☐ **Unity of invention is lacking** (See Box No. III)

4. With regard to the **title**,

the text is approved as submitted by the applicant.

the text has been established by this Authority to read as follows:

5. With regard to the **abstract**,

the text is approved as submitted by the applicant.

the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box No. IV. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.

6. With regard to the **drawings**,

a. the figure of the **drawings** to be published with the abstract is Figure No. 1

as suggested by the applicant.

as selected by this Authority, because the applicant failed to suggest a figure.

as selected by this Authority, because this figure better characterizes the invention.

b. ☐ none of the figures is to be published with the abstract.

INTERNATIONAL SEARCH REPORT

International application No.

PCT/US05/22987

Box IV TEXT OF THE ABSTRACT (Continuation of Item 5 of the first sheet)

NEW ABSTRACT

An inventory management system (10) configured for use in association with at least one container (12) containing an amount of inventory material at a monitored location (40) is provided. The system includes at least one measurement instrument (11) operatively associated with the container (12), the measurement instrument (11) being configured to generate at least one data signal representative of the amount of the inventory material in the container (12), a telemetry unit (16) in communication with the measurement instrument (11), the telemetry unit (16) being configured to receive at least the generated data signal from the measurement instrument (11) and to convert the generated data signal into inventory information, a first server in communication with the telemetry unit (16) via an Internet connection, the first server configured to receive at least the inventory information from the telemetry unit (16); and, at least a second server in communication with the first server, the second server configured for receiving at least the inventory information from the first server into at least one data storage medium operatively associated with the second server to process the inventory information for presentation on at least one website.

INTERNATIONAL SEARCH REPORT

International application No.

PCT/US05/22987

A. CLASSIFICATION OF SUBJECT MATTER

IPC: G06Q 30/00(2006.01);G06G 1/14(2006.01)

USPC: 705/28,22

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

U.S. : 705/28, 22

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
Y	US 5,983,198 (MOWERY et al) 09 November 1999 (09.11.1999), see entire document.	1-15
Y	US 2004/0103144 A1 (SALLAM et al) 27 May 2004 (27.05.2004), see entire document.	1-15

☐ Further documents are listed in the continuation of Box C.

☐ See patent family annex.

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"B" earlier application or patent published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T"

later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X"

document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y"

document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&"

document member of the same patent family

Date of the actual completion of the international search

29 June 2006 (29.06.2006)

Date of mailing of the international search report

24 AUG 2006
